⋀   single crochet & half double crochet together (sc&hdctog)

T̅   double crochet (dc)

⋀̅   double crochet 2 together (dc2tog)

→   direction
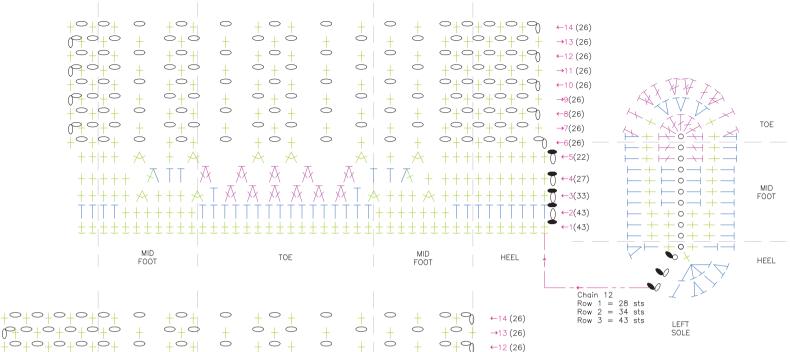

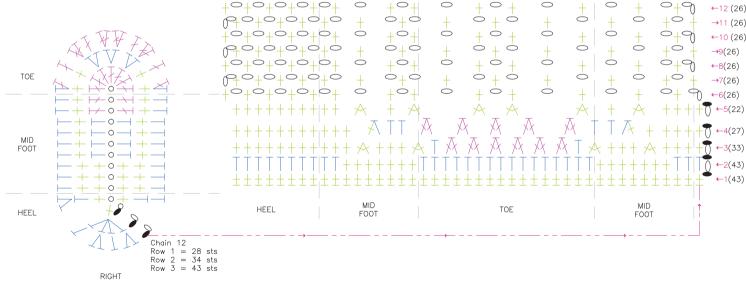

Notes :
1.   Minor change on the starting point on the first row of sole to bring position of the booties shaft left and right side. So, pattern work without cutting of the yarn for different parts of booties. Unless you making different colour for the sole & upper shoes.
2.   Sole and instep crochet in raised rounds and connect/end with slip stitch. Start every row at the same stitch where you joint. And Chain 1 to raise the row.
3.   Shaft part will be work with turning back and forth.
4.   If you see the 2 stitches in the diagram shown in the same stitch mean there are 2 stitches on the same stitch.
